“ I had the good fortune for several years to work with Jasper as a team who recorded material for the blind at The Braille and Talking Book Library in Daytona Beach. Working with him was a joyful experience as he loved to learn new methods of work and was extremely dedicated to the work we did. He was a beloved friend and I will greatly miss his true love for life, sonorous voice and many happy times shared.
My deepest sympathy to all of his family, especially his beloved daughter Linda.

“ My thoughts and prayers are with you and your family. I've always known him as "Joe". When I was very young he would take me in my stroller and walk me around and usually ending up at a baseball field with his friends playing ball with them. Everyone looked after me. He told me this much later in my life. I don't think my mom knew this either. When the war was over he came over to our grandparents apartment when I was there. I never saw a more handsome guy then when he came through that door with his uniform on. I know he will be greatly missed.
